### HALF-WAY WORK.

It is observed with much regret that It is observed with much regret that the work of sprinkling the streets of Fresno is being poorly done this scoreon up to the present time. The streets are not as well sprinkled as they were last summer at this time, and that is a pretty serious indictment of the work. Out of the many densely settled streets pretty serious indictment or the work. Out of the many densely settled streets of the city not more than two or three are well sprinkled. On the others the dust is accumulating and every passing

dust is accumulating and every passing vehicle raises a cloud of it.

This is a condition which must be remedied. If incuficient sprinkling is due to the fact that the city has not enough wagons to do the work, more wagons must be had. If those in use are not uponded to the best advantage stens must be had. If those in use are not handled to the best advantage steps must be taken to see that better service is secured from them. We understand quite well that the city is paying a low price for the work, it having been let to be lowest hidder, but the contract is for thorough work, and it is the duty of the municipal authorities to see that it is readered.

THE REPUBLICAN simply voices a manimous public sentiment when it demands thorough street sprinkling for this city. It is essential both for the comfort and health of every resident. The disconfort of long, warm summers is reduced fifty per cent, when dust is sliminated, and that dust-laden atmosphere is a profile source of diseaso mosphere is a prolinc source of disease imitted by the best medical au is admitted by the bost mentear in-thority. It is an imperative necessity that the streets of Fresno be kept well sprinkled, and if the present facilities are not sufficient for the purpose they must be made so without further delay. In the meantime it is the duty of the authorities to see that the best possible service is secured from the tacilities now

### VARIETIES OF CROW.

Commenting on anticipated crow for Republican editors who advocate the free coinage of silver at a ratio of 16 to 1, the Modesto Nows, a Democratic paper,

Why, of course they will banquet on crow. No intelligent editor expects the Republican party to monitors an avowed, unconditional silver coinage at the rate of 16 to 1 candidate. The most such pretended friends of silver colungs can expect is an evasive, double, better the commental phallorm and nomination. Nevertheless, if grow has to be enten our Republicar friends can do it just about as gracofully as anyone.

if just anous as gracefully as the sugges-tion that if we must cat crow it is devoutly to be hoped that it may be of the unte-election rather than the post-election variety. Our Democratic friends, it will be noted, are taking the friends, it will be noted, are taking the post-election kind. Their national plat-form of 1892 declared for bimetallism; heir President of 1893, '01 and '95 de-clared for monometallism, and during all that time he has forced the sbony rd down their throats in sickening bird down their throats in sectioning doses. If the Ropublican party will not favor bimetallism, pure and unadulterated, let us at least hope that it will say so before the election, so that we of the party may not be compelled to father a lie national in its scope, as the administration Democrats have done. If it must be grow, let it be the ante-election must be crow, let it be the ante-election bird, that it may not be metamorphosed into a grim and ghastly raven, croaking "Nevermore" to the party, as has ocsurred to the Democratic party's crow Corow comments from Democratic sources, with that party's recent finan-cial record yet in mind, fall with a dull and sickening that. There are varieties of crow, and we call for another kind than that our Democratic brethren are ligacting with such grace as they may.

This canal, sixty-three miles in length, built through a three miles in length, built through a comparatively level country, will accommodate the largest ship afloat. It is built across the southern part of the peninsula of Juliand, and readers the Baltic sea accessible at all seasons of the year. The routs to the portion the Baltic through the rocky and often lee-bound straits between Denmark and the northern peninsula was at all times dancerous ern peniasula was at all times dangerous and often impossible on account of ice. The effect of the building of this canal, soon to be opened, has already been to give an impetus to shipping in the German and Russian ports of the Baltic. It will be of great strategic advantage to mercial importance. Although the re-gion traversed is a level one, the size of the canal has rendered it an enterprise of great magnitude, and there were nu-merous grave difficulties, owing to the small rivers crossed. The experience gained in every enterprise of this kind makes the next one easier of accom-plishment. The success of this work should give added hope to the promoters of the Nicaragua scheme, the effects of which will be more far reaching and its benefits immeasurably greater.

MILES WALLACE, of Madera, will orate Miles Watlace, of Madera, will orate for the people of Selma on the Glorious Fourth, and the people of Madera are objecting because he is going so far away from home lhat they cannot hear the sound of his voice on that occasion. ### RANDOM REMARKS.

Seattle whisky must be especially poor this spring. The sea serpent has been seen in that vicinity.

That a curgle, then a gli-luck,
Then the onk, strange noises come
Yet start not, oh, gentle stranger—
Tis our Helen chewing gum.

An Oakland man attempted to commit succide because he and, his wife differed about the haptiem of their children. The dectors say they will save him, but this should not be taken as a proof that haptiem it, or is not, a sering ordinance. Yet nobody could blame the man. It is a terrible thought, for instance, that one's child may be lost through all evenity merely because too much or too little water was used in baptizing the little one. It is enough to make a parent shudder. The writer, himself, is now shouldering.

At a dinner parly given by the Country Club in Washing on, B. C., the other night a young woman challenged a foreign diplomat to ride about this room on horseback, and he did it. The board of governors of the club were so offended by the act that they say no foreigner shall henceforth cross the threshold of the Country Club. Now to be equally logical throughout, they should, as as woman challenged the foreigner, har all women from club parties, and, as the foreigner was a man, they should bar all men. To do so would be no more abound than to har all foreigners because one imit acted the part of a wine-travel boor.

The Hawaiian consul at San Diego is offering a dollar a dozen for horned toads for shipment to the islands. It is muce to know that the Hawaiian government has "got onto the little game." It is played like this: You put a dozen borned loads in your pocket and go to a church social. Just as the halies and gentlemen present are about to play who Grist the Oyster? you carefuestly pull out your hundkerchiet, and the toads drop on the floor. The game is to see which hady will climb on a chair and say 'Oh! Myeed' litest. Now that it is to be introduced in Honoinlin the islanders will have a great deal of aport for a time. It adds a was a mount of interest to a church social.

My friend bachman "calls me down" in the Expositor on the proposition that the marriage contract law is now in force, explaining that it yet lacks a week of being ripe enough to pick. I take advantage of the occasion to say that he is right-and I was wrong. If I were like likelman, a member of the legislature, with an "Hon." prefixed to my name like a long handle to a small dipper, instead of a humble newspaper man with no monition above being night-watchman in our ward, I too would have known. But, as it is, I nowittingly adopted a rather popular error. Not everybody can belong to the legislature and went Prince Albert@ coals and crysanthamuma and he loved by the ladies; so my feeling in this matter is not one of envy, but only a deep regret that I too coald not have had an opportunity to know about now laws and other legislature matters. # A Sermon Which Will Do

for Any Day. LETTER FROM MRS. NG SANG

Comments on the Case Against Charles Brown—Cows and a Plan That Is Not New.

Mamie Thompson formerly lived at similar rimingon formerly tives as kingsburg, in this county, and there she was well enough known. Night be-fore last she jumped from a ferryboat into San Francisco bay, and the shifting waters chapped for in their embrace of

So, briefly told, run the facts, but I of them lies a sermon which may inter-at some of the people who will hear no other sermon on this bright Sabbath day, and lots of an can stand a sermon if is not too long. Mamie Thompson as not a bad looking girl, and she was onssessed of something like average in-olligence. There was no reason why

possessed of somathing like average intelligence. There was no reason why she should not have been a huppy wife and honored mother today—save one. There was no reason why she should be classed as "one more unfortunate, strangely importunatio"—save one. There was no reason why she might not have been the love-crowned queen of a happy home, with her little ones playing at her side—save one. No reason was there that the gray waters should insuffer her a hind blulaby—save one. What was this only reason? This Mannie Thompson would have a good time; she was blinded by the glare of the tines of sin. Like a foolish human moth, she howeved about the flame of vice, and it burned her. She set at definite divine and it burned her. She set at definite divine, the peakity which, in one form or another, is mavolidably set on the infraction of those blaws.

There words than these never were written: "The way of the trangessor is hard." Nor is their truth confined to either sex; man or woman, you must pay the price for excess, incontinence of the reason of the player always in broken nerves, viliated will, lost moral force and the wreek of manipoul. There is no escape; I have watched the did game of avil olayed until them with the player always losses. Take my word for it and save your shan, but the content of the save of the tranges of the sampled the did game of avil olayed until I know that the player always losses. Take my word for it and save your shan, for rine wars.

word for it and save your shins, for nine are scarred and calloused all the way down.

When Munie Thompson first traded her year; womanhood's home for parsian there was mother party to the guilt. She sleeps where the sea weeds reach their sliny arms to her, and the seaguils crosk a dismal requism above her shifting grave. He sleens—I wondor if he sleeps on an easy mattress and with a smile upon his face. Suppose he does; is that inguistics? Wait. "The mills of the gods grind slowly, but they grind exceeding small," We touch "this bank and shoul of time" for so brief a moment that we can illy judge the eternal purpose. In stornity is no lack of time tower out the ends of justice, Godsmappionty of time. For every sin the price of sin will be paid, and man will no more escape from it than will woman.

And it this is too much of a sermon for one day, dear boy or dear girl, suppose you take it in installments throughout the week and see if it won't do for any day.

The following tragely was reported in yeaterday Reconnects:

"Instice St. John yeaterday married Ng Same to Alies Sul Toy both Chinese.

"A After tying the conjugal knot the justice timidly attempted to kise the blushing and painted bride."

The following, signed by Mrs. Ng Same, was received by mu last evening, and I feel that it is but justice to her'to publish it:

Which for him killsee nic, Melican man Hantler? Ng Singho kilsee. See! Some one elso no tiust is. Which for him wante killse, Alice somes Glusen? What for him say it hiles, Tly a hap a dozen.

In its report of the examination

In its report of the examination of Charles Brown for shooting William Thusen the Revenue and Says:

"The testimony against the defendant was considerably weaker than was expected. Some of the witnesses had their first accounts of the shooting. William Thusen, the man whom Brown shot, disappeared some time ago, and has not been heard of since to help Brown out of his difficulty, they having become friends again."

If reports may be trusted—and we think they may be in this case—the shooting of Thusen better the shooting for the shooting for the shooting for the shooting shooting shooting clearing the shooting shooting shooting clear through a saloon in his attempt to murder as could well be imagined. The two men quarrefled, and Brown pulled his revolver and began shooting cleasing Thusen clear through a saloon in his attempt to murder him. If, under these circumstances, the case is allowed to "fixele out" either through the "forget inliness" or "mysterions disappearined of wincesses, it will be nothing less than an offense against the public. We need to discourage would-be nurderers in Fresno, as well as elsewhere, and we need apply to them no axioms from a book on Murdeirn Murde Easy. I take it was unjustifiable neglect which permitted Thusen to "disappear," and I sincerely hope that some method of restoring last menuries will be discovered for the remainder of the witnesses.

The trial of F. G. Gould, which had been in progress in the superior court of Madera for several days, was concluded Friday. Gould is a mining man of intelerator soveral days, was concluded Friday. Goodd is a mining man from San Francisco, who came to Maders county and had the Zebra mine examined for the purpose of ascertaining its value. It seems that Theodore Alviso had previously acquired some chain against the mine and seized an ore wagon belonging to the Zahra Mining and Milling Company for the purpose of securing his debt, and when Could sent that teamster for the wagon with an order from the president of the mine Alviso refused to deliver it, (fould started after the wagon with his foreness, Hernoth, taking with them a shotgum. Hersch, taking with them a shotgum. Hersch, taking with them a shotgum they returned to the house, where Gould informed Alviso of his raission and ordered his transator to hook to the ore sugon, at the same time preducing his shotgum. Alviso stepped into his house and opened the door and fired at fould, who returned the first. Upon this point there was a material condition the estimony. Brief arguments were made by connect on both shot of such as the point with a disadity weapon, after two hours' deliberation.

It is owned by G. H. Malter who prides himself on the high quality of the products of his vineyard. The trade of Craig and Von Schmidt is by no means conlined to Fresno; orders come in from eastern cities, from people who are particular in their demands for puro whee. The business is strictly wholesale, but families may be supplied at the lowest prices. The St. George Wine Cellar is doing a large business, which from the quality of the goods handled it richly deserves.

The meeting opened with the reading of a communication from District. Attorney Snow in regard to the request made by the board at its meeting on last. Wedrebalay ovening for a written opinion on the legality of the recent act of the beard concerning the high school site matter. We have a definite statement of facts on which the board wanted an opinion; that the request for an opinion "as to the legality of the recent action for the board locating the high school building on the Central block," as was in the letter sent by Secretary Commungs to him, was loo indefinite.

President Eiden said that he did not think it necessary to secure the opinion of the district attorney, he, for one, being gatisfied to go forward with the matter without Mr. Saow's opinion, He had secured the opinion of two good attorneys in this etty, and felt fully advised.

Trustee Monroo also stated that he The meeting opened with the reading

corneys in this city, and felt felly advised.

Trustee Monros also stated that he had secured the advise of a competent attorney and felt extisiled to go ahead with placing the new high school building on the Central block.

Hereupon R. B. Butler, one of the Terry block agents, stepped forward and stated that he was ready to fulfill apart of the contract with the board high part of the contract with the board; he had been seen to be see

Mr. Otherch forther contended at there are no fands with which to the work. The white building is an tome, and if he shand it may leaf a mabor of years longer; but to move it ould be foolish, and it would be better construct a new building.
Committings moved that fithe district torney regards the Terry block title od the loard purchase the block and y Mosses, Rober and Butler the conset price.

Chairman Eden reled the motion out of order; because that motion had been actiled at the last meeting; further, the heard had "rescincted all actions concerning the Terry block."

The ruling of the president raised Church's words almost to vehemence. "The board cannot impair its obligation to Messa. Butler and Rober," said the trustee. "Dan't tell me that the board can be so stupid to think that it can do anything it wishes rontrary to law." Mr. Church spoke at considerable length on the matter.

Mr. Gallagher's motion was then put and carried.

A Novel by a Fresno Author. The Representant has received the advance shoots of a lively and very inter-ceting novel by a local author, not in-known to the readers of this paper, the columns of which have at various times repuled its renders with sketches from his pear that have been topied by lead-ing casters journals and magnaines. The plot of the atory runs through a period of twenty years, and dens with the hotost conarrabble phenomens of accult-cities, situations and wimexes of ascribing and gruesoms character keep the render's integination ever on the affect it it in close, which is asying a great dual for any story writer of the modern school.

The author gives a conesse marrative wonderful incidents, linked with probability, that forces conviction upon the reader. It may be predicted for this book a wide recognition and large sale amongst the lovers of the mysterious, as it is entirely different in plotand construction from anything of a similar character attempted by modern writers of the mystic chass, because it is built upon actual evidence, and will therefore command the attention of the students of mystician among all chasses.

ROBERT BARTON'S BENEFIT An Exceptionally Fine Comedy Monday Night.

Monday Night.

On tomorrow evaning at the Barton opera house "The American Girl," the much talked of comedy draina written by 1. Cration Donnelly, the author of "Ship Ahoy," "Natural Gas," "Later On," "A Night at the Gircus," "Diek Turpin" and others, will be presented, It will run for two nights. It was the original Intention to play only Denver and Kansas Gity en route to New York, where the play is to be presented at the Grand opera house, but Manager Barton of Ferson and Mr. Wyatt of the Los Angeles theater prevailed on Manager How to place the play in Fresion and Los Angeles en route.

So much has already been end in the San Francisco papers regarding the great worth of this exceptionally strong councily that it is superfluous to add more. The same children that created such favorable comment in the city will be seen in the play intre.

Our people will undoubtedly give Manager Barton a bumper on Monday, the opening night, as it is the occasion of his benofit.
